

The goals

of Transit Solutions™ are to:

- ▶ **Improve the air quality on Long Island.**
- ▶ **Increase ALL forms of transit ridership** on Long Island by clearly communicating all of the transit options available to workers and residents.
- ▶ **Help to educate Long Island employers and workers** about the pre-tax commuter benefit and the programs available for them to save money.
- ▶ **Increase awareness of transit fare options**, including convenient mail and Internet purchasing options.
- ▶ **Research areas where demand for expanded transit services exists** in order to serve Long Island residents and businesses better.

It's easy.

Call TRANSIT SOLUTIONS™ at

516.242.8121

to set up a presentation on the benefits of transit and how your company can offer the pre-tax commuter benefit.

Visit www.TransitSolutions.org for more information!

Good for the environment.
Good for your company.

Sustainability starts with transit.

Get on track with your sustainability efforts!

Since the TRANSIT SOLUTIONS™ program began, the following employers in Long Island have implemented the pre-tax commuter benefit program.

You and your company can have a positive impact on the quality of life on Long Island!

Encouraging your employees to use transit is a great sustainability initiative. Currently, Americans use more energy for transportation than any other activity including industrial and commercial use. In fact, as much energy is often used by employees getting to work than they consume at work!

Companies like yours that encourage the use of transit help conserve energy, reduce pollution and greenhouse gases, decrease traffic congestion, and increase employee productivity.

Plus, with unpredictable gas prices, using transit makes sense!

Encouraging use of public transportation is a great sustainability initiative with multiple benefits:

ENERGY CONSERVATION

- › Taking public transportation offers an immediate alternative for individuals seeking to reduce their energy use.

EMISSION REDUCTIONS

- › For each mile your employees don't drive, a pound of CO₂ is kept out of the air, reducing an employee's overall carbon footprint, while also improving our air quality.

REDUCED PARKING PROBLEMS

- › Promoting awareness of transit options helps employees find alternate ways to get to work.

COST SAVINGS

- › Using transit saves your employees money on fuel, maintenance, insurance, parking and taxes.
- › Offering the pre-tax commuter benefit program can save employees up to 40% of their commuting costs and save your company thousands of dollars in payroll taxes.

PROMOTING ALTERNATIVE TRANSPORTATION CAN ALSO ASSIST IN ACHIEVING LEED CERTIFICATION.

Sustainable Actions You Can Take NOW!

1. Encourage employees to sign up for the *I Pledge Program* to commit to using transit as often as possible.
2. Consider providing free or subsidized transit passes for employees to use.
3. Utilize TRANSIT SOLUTIONS™ to conduct transportation fairs to help educate employees about the transit options available to them.
4. Offer employees the chance to reduce transit costs by up to 40% by enrolling your company in a pre-tax commuter benefit program offered by TransitChek, WageWorks, CommuterCheck, TotalBen, WiredCommute or Swipe-N-Save.
